Overview

Will Kelly is experienced at handling all aspects of IP law with a specific emphasis on preparing and prosecuting foreign and domestic patent applications for software and information technology. In addition, he has experience contributing to open-source online programming projects and helping to beta-test independently developed online software.

Will previously studied computer science at the University of Arizona, where he gained in-depth knowledge of computer networking, databases, operating systems, and programming techniques. After completing his undergraduate studies, Will earned his Juris Doctor from the University of Georgia School of Law.
