Health Law Navigator: 60-Day Overpayment Rule – Relief to Providers or Just Changing the Things to Worry About?

March 12, 2025
12:00 pm CDT - 1:00 pm CDT

Join us for our next Health Law Navigator webinar for an insightful session where Spencer Fane attorney Bill Hopkins will deep into the Centers for Medicare and Medicaid Services (CMS) 60-Day Overpayment Rule.

This rule, established by the 2010 Affordable Care Act, mandates that providers report and return any Medicare or Medicaid overpayments within 60 days of identification. Failure to comply can result in hefty civil money penalties and potential allegations under the Federal False Claims Act.

This webinar will explore:

- **The Evolution of the Rule:** Understand the history and initial implementation of the 60-day rule, which went into effect in March 2016.
- **Key Revisions and Updates:** Learn about the proposed 2022 revisions and the latest 2024 modifications, including the new six-month investigation period that temporarily suspends the 60-day refund deadline.
- **Impact on Providers:** Discover how these changes affect health care providers and the necessary actions to ensure compliance and avoid penalties.

Don't miss this opportunity to gain valuable insights and practical guidance. Whether you're new to the rule or looking to refresh your knowledge, this session will provide you with the tools and information you need to navigate the complexities of the CMS 60-Day Overpayment Rule.
