Design and Utility Patent Law: 2023–2024 Update

December 3, 2024

12:00 pm CDT – 1:00 pm CDT

Join Spencer Fane for this webinar covering key Federal Circuit and U.S. Supreme Court patent cases from 2023 to early 2024. Attorney and patent law thought leader [DJ Healey](#) will help you discover how these rulings impact litigation, PTAB post-grant, and prosecution practices.

Highlights include:

- **LKQ v. GM:** New vulnerabilities for design patents.
- **VLSI v. Intel:** Tougher apportionment test for damages, vacating the biggest patent infringement verdict on the books.
- **Amgen v. Sanofi:** Groundbreaking patent enablement ruling.
- **Ironburg v. Valve:** Refined IPR estoppel law.
- **Hip v. Hormel:** Realigned inventorship law.
- **Sonos v. Google:** Potential impacts on continuation practice.

Gain critical insights on these cases to stay ahead in patent law.
