Cybersecurity Attack 101 – Prevention Tools and Crisis Management

Spencer Fane attorney [Jeremy Rucker](#) recently presented a webinar for the Dallas Bar Association covering cybersecurity and crisis management.

As part of a panel, Jeremy discussed types of cybersecurity attacks, how companies can avoid and defend against these attacks, tools for prevention, and crisis management strategies.

At Spencer Fane, Jeremy focuses his practice on privacy and data protection and corporate transactions. He regularly counsels companies on navigating the regulatory and compliance issues before and after a data breach. He has represented companies of all sizes covering several industries including healthcare, banking and finance, and manufacturing.
