

SpencerFane®

Health Law Navigator: Litigation 101 – The Basics

January 15, 2025

12:00 pm CST – 1:00 pm CST

The Health Law Navigator webinar series offers bimonthly webinars to help you navigate the ever-changing health law landscape.

In our January session, Spencer Fane attorney [Mark Cole](#) will overview the litigation process from what happens before a lawsuit is filed to final resolution. He will walk through a roadmap for “typical” cases and discuss how cases stray from the “typical” in the real world. The webinar will also cover strategies for reducing litigation risk both before and after a lawsuit is filed. Whether a case is litigated all the way through trial and appeal or settled at some point in between, understanding the process can help lawyers and business professionals better execute other aspects of their jobs.
