High-Profile D.C. Partner Joins Spencer Fane, Bolsters Cybersecurity, AI Practice

Spencer Fane LLP is pleased to welcome Gregory Ewing to the firm's Washington, D.C., office as a partner in the Data Privacy and Cybersecurity Practice Group, which has expanded to include artificial intelligence and emerging technology.

Supported by a dynamic mix of practical legal acumen and technical fluency, Greg represents clients in complex and high-profile cybersecurity, privacy, blockchain, artificial intelligence, and other technology-related litigation and arbitration. He also serves as a diligent counselor, guiding strategic business operations and product development and advising on best practices through the development of sophisticated cybersecurity, AI, and privacy compliance programs and policies, licensing frameworks, and technology contracts.

With clients ranging from Fortune 100 companies to non-U.S. sovereigns to small businesses and individuals, Greg has served as a strong and agile representative before diverse national and international legal venues. These include the International Trade Commission and the International Centre for Settlement of Investment Disputes, in addition to U.S. courts and arbitration tribunals. He also boasts experience representing product manufacturers in trade investigations before the U.S. International Trade Commission and the U.S. Department of Commerce.

In addition, Greg regularly manages general commercial litigation matters for local and regional businesses in D.C. and Maryland.

"AI, cybersecurity, and data privacy issues cut across all practices and industries. Our cybersecurity practice continues to evolve and innovate to remain on the cutting edge of AI and other emerging tech, and Greg's dynamic experience across the

sector will add considerable value to our client service offerings," said Bill Powers, office managing partner for Spencer Fane in Washington, D.C. "We look forward to how Greg will leverage and grow our already deep bench of industry knowledge as he collaborates with our talented team of creative and technical legal strategists in service of our clients."

Greg obtained his bachelor's degree from the University of Pennsylvania before earning his Juris Doctor *magna cum laude* from the Catholic University of America Columbus School of Law. Prior to law school, he worked as a software developer and consultant, experience which aids his thoughtful, tech-savvy perspective amid highly complex and contentious disputes.

Beyond private practice, Greg is a board member for Breadcoin, a D.C.-based nonprofit that works to combat food insecurity through community food tokens.
