Linda Knight to Participate in the LCLD Success in Law School Mentoring Program

Spencer Fane attorney Linda Knight will participate as a mentor in the Leadership Council on Legal Diversity (LCLD) Success in Law School Mentoring Program. This initiative is designed to ensure that first-year diverse law students receive the mentoring they need to maximize their potential both during law school and upon entering the legal profession.

Linda was matched with a mentee at the University of Colorado School of Law and will offer her support and advice to help maximize her mentee's personal and professional development.

Linda was a 2021 Fellow of LCLD. Her practice focuses on litigation and dispute resolution matters in the construction, insurance, and transportation industries. She helps insurers and their insureds successfully resolve complicated first- and third-party litigation to minimize potential exposure when stakes are high. Linda has a national trial practice defending insured parties in catastrophic loss cases and insurers in coverage and bad faith litigation.
