Ravi Sundara Returns for SABA Foundation Roundtable

For the fourth consecutive year, Spencer Fane was pleased to sponsor a South Asian Bar Association of North America Foundation (SABA Foundation) roundtable. Attorney Ravi Sundara returned as presenter for this virtual nonprofit discussion on April 23.

Ravi provided legal insights focused on tax law changes and other topics that impact nonprofit governance. Interactive and engaging, the roundtable built upon the nonprofit advisor's previous discussion on governance best practices and his recent thought leadership.

At Spencer Fane, Ravi assists clients in structuring transactions so they can achieve their goals within legal parameters. He represents his clients in corporate formations, reorganizations, mergers, asset sales and acquisitions, and other corporate transactions. His experience includes the formation of tax-exempt, nonprofit charitable, religious, and educational corporations and advising clients on matters related to tax-exempt status, the unrelated business income tax, and corporate governance, as well as transactional, contractual, and regulatory matters.
