Scott Davis to Speak at Perrin Conferences Environmental Risk & PFAS Litigation Conference

Spencer Fane attorney Scott Davis is a featured speaker at the upcoming Perrin Conferences' Environmental Risk & PFAS Litigation Conference to be held at the New York City Bar Association on June 17-18, 2025. Spencer Fane is one of the conference sponsors.

The two-day CLE program and networking event provides comprehensive industry updates on key trends and challenges in environmental law and is comprised of engaging sessions led by insurance professionals and legal thought leaders, including Scott.

Scott and fellow Spencer Fane attorney Tyler Scott recently spoke at Perrin Conferences' virtual PFAS Litigation and Regulatory Developments Conference held in February, which addressed current litigation and multi-district litigation, federal regulatory and state-level developments, PFAS consumer fraud, and unique PFAs claims, among other related topics. Since joining Spencer Fane in October 2024, the two have established themselves as pivotal members of the firm's national insurance litigation practice and as top talents across broader industry circles.

At the firm, Scott works with clients to resolve complex business disputes through strategic counseling and litigation, advancing their interests while reducing financial exposure as he creates optimal paths for success in and out of the courtroom.

Perrin Conferences is the foremost provider of joint plaintiff / defendant litigation conferences which offer specialized CLE. These include in-person and virtual conferences, presentations, meetings, and mock trials.
