

SpencerFane®

SecureWorld Central Virtual Conference

Spencer Fane attorney [Shawn Tuma](#) will present at the upcoming Secure World virtual conference covering ransomware threats and the incident response life cycle.

Shawn will be featured as the [closing keynote speaker](#) discussing the impact a cyber attack can have on a business and best practices for cyber recovery.

In a “virtual tabletop exercise,” Shawn will explain the importance of fully understanding the process of a successful ransomware attack, including:

- Initial Discovery and Ransom Negotiation
- IR Team Activation
- Data Recovery and Restoration
- Process of Prolonged Litigation
