SecureWorld Texas Virtual Conference

Spencer Fane attorney [Shawn Tuma](#) recently presented at the 17th Annual SecureWorld Texas Virtual Conference, covering cyber incident response. This event provided a platform to learn about cybersecurity trends and network with industry professionals.

Shawn spoke as part of the “Advisory Council Roundtable” and discussed best practices for leading companies through the cyber incident response and data breach response process. He also explained crisis management and regulatory compliance investigations and enforcement actions.

Shawn has over 20 years of experience in data privacy and cyber security and is frequently sought out and hired by other lawyers and law firms to advise them when these issues arise in cases for their own clients. He is often an invited speaker at SecureWorld events and is a frequent author and analyst for the national media.
