Shawn Tuma Leads Virtual Roundtable on CISO Cybersecurity Strategy

Spencer Fane attorney Shawn Tuma led the ExtraHop virtual roundtable, Uniting the Cyber Risk Defenders, on August 13.

Through a conversation with ExtraHop's Rafal Los, Shawn delved into the critical relationship between chief information security officers (CISOs) and general counsel. The session covered what CISOs should know before a data breach, effective breach response strategy, and cybersecurity litigation trends and legal accountability. The pair's real-world stories and practical advice assisted attendees in strengthening their cyber resilience for organizations of all sizes.

At Spencer Fane, Shawn co-leads the firm's Cyber | Data | Artificial Intelligence | Emerging Technology Practice Group while serving as Office Managing Partner for the firm's Plano location. In addition to these leadership roles and extensive thought leadership throughout the industry, he maintains a robust law practice that helps a wide range of clients navigate cybersecurity, data privacy, data breach and incident response, regulatory compliance, computer fraud-related legal issues, and cyber-related litigation.
