Shawn Tuma Talks Cybersecurity Due Care for Identity Governance Webinar

Spencer Fane attorney [Shawn Tuma](#) was a panelist for YouAttest's webinar, Cyber Security and Cyber Law – Identity Governance Matters, on February 27.

The panel discussed the legal responsibility organizations hold in an era of increasing data breach lawsuits and provided cybersecurity advice. Shawn explained "due care" and "negligence" in relation to the cyber industry: "Reasonable cybersecurity is a process, it's not a definition," he shared. "It's engaging in the process of assessing and understanding your risk...then your execution and strategic planning...and that's how you find what is really due care."

Shawn was joined by Justin McCorkle (Crucial Cyber), Stacey Cameron (DirectDefense and CyCam Strategies), Garret Grajek (YouAttest), and moderator Ashley Madison (YouAttest).

At Spencer Fane, Shawn co-leads the firm's Data Privacy and Cybersecurity Practice Group. He helps businesses protect their information and protect themselves from their information. Shawn is a frequently sought-out thought leader who represents a wide range of clients in dealing with cybersecurity, data privacy, data breach and incident response, regulatory compliance, computer fraud-related legal issues, and cyber-related litigation.
