SpencerFane®

Spencer Fane Achieves Spot on Top Law Firm Index for Sustained Excellence

Spencer Fane is honored to have earned placement in the 2023 Leopard Law Firm Index (LLFI) Top 200 law ranking, which recognizes firms for achieving sustained excellence in areas such as overall business performance, growth, retention, and diversity.

Since 2020, legal intelligence provider Leopard Solutions has curated this list to recognize law firms that consistently perform well in areas vital to legal success, such as profitability, growth, visibility, and potential opportunity. The LLFI is a dynamic rating system that aims to measure firms based on uncompromised, numeric, and proportionately weighted data sets. The ranking recognizes law firms using factors such as growth or decline in attorney headcount, attorney retention, fluctuations in revenue per lawyer, and ethnic and gender diversity.

Inclusion on the LLFI highlights the intentional focus Spencer Fane places on maintaining an entrepreneurial, collaborative, and inclusive environment for its professionals while unlocking the most value for its clients and expanding the firm's national footprint to meet their growing needs. This approach has made Spencer Fane one of the highest-performing firms nationally in workplace and client satisfaction, diversity traction, and growth.
