Spencer Fane Climbs into Top 100 of Leopard Law Firm Index for Excellence

Spencer Fane is pleased to announce its inclusion in the 2024 Leopard Law Firm Index (LLFI) Top 200 law ranking. The firm has jumped up 35 spots on this list since last year, earning a place in the Top 100 for this recognition of “excellence in attorney growth and stability.”

Since 2020, legal intelligence provider Leopard Solutions has curated this list to recognize law firms that consistently perform well in areas vital to legal success such as profitability, viability, growth, and potential opportunity. The LLFI is a dynamic rating system that aims to measure firms based on numeric and proportionately weighted data sets while removing bias toward firm size. Recognizing that “financials do not tell the whole story,” this ranking examines eight factors to determine firm health including success in lateral recruiting and retention, number of promotions to partner, fluctuations in revenue per lawyer, average attorney tenure, and more.

Inclusion on the LLFI highlights the intentional focus Spencer Fane places on maintaining an entrepreneurial, collaborative, and inclusive environment for its all-star talent while unlocking the most value for clients across an expanding range of markets. In addition to increasing the firm’s national footprint, this approach has made Spencer Fane one of the highest-performing firms nationally in workplace satisfaction and opportunity as underscored by recent industry recognition in [U.S. News & World Report](#), the *American Lawyer*, [Kansas City Business Journal](#), and more.
