Spencer Fane Joins Women's Power Summit on Law and Leadership

Spencer Fane was pleased to recently sponsor the Center for Women in Law (CWIL) 2022 Women's Power Summit on Law and Leadership. This event brought together women in the legal profession to network, generate ideas, learn about recent developments in the law, and celebrate women's empowerment.

The CWIL is an organization that cultivates an educational environment to advance the success of women in the legal industry and work towards equity and justice for all.

At Spencer Fane, our Women ADVOCATE group aligns well with the CWIL's mission, as it aims to advance women within the firm and their civic and business communities. The group is dedicated to the recruitment, retention, and advancement of female attorneys by providing resources to develop our members, championing their interests, and offering an environment for all members to thrive.
