Spencer Fane Presents Boulder Chamber's Business Before Hours Networking Event

Spencer Fane is expanding community outreach in Denver and surrounding metros through the Boulder Chamber, the region's flagship business advocacy and economic support organization. The Chamber hosted a successful Business Before Hours (BBH) breakfast networking event presented by Spencer Fane on January 25.

During the Chamber's quarterly BBH, attendees discussed sustainable, accessible transportation services and initiatives with industry leaders. In keeping with the event theme, the Chamber-integrated nonprofit Boulder Transportation Connections (BTC) encouraged BBH attendees to practice sustainable transportation methods by carpooling with event staff or utilizing public transportation to and from the event.

Spencer Fane is proud to support the Boulder Chamber as it bolsters local community and economic resources and highlights impactful businesses such as BTC.

Check out a brief recap with photos from the event on the Boulder Chamber's LinkedIn here.
