## Spencer Fane Sponsors ERCOT Market Summit

Spencer Fane was pleased to serve as a Silver Sponsor for Infocast's ERCOT Market Summit, held February 13-15 in Austin, Texas. Members of the Spencer Fane Utilities practice attended the event and served as panel moderators.

The conference provided a deep dive into impending regulatory changes to the Electric Reliability Council of Texas (ERCOT). Utility, solar, wind, IPP, finance, and trading thought leaders gathered to explore the tumultuous future of this massive power market; examine the impacts on resource adequacy, power prices, project siting, and bankability; and advise on how to best meet the shifting needs of commercial, industrial, and retail customers.

The Spencer Fane Utilities team is co-led by [Cody Faulk](#) and [Cathy Webking](#). This practice team represents investor and municipally owned utility clients and competitive market participants in both routine and complicated administrative, transactional, operational, and regulatory issues, helping them capitalize on financial benefits in operations while avoiding potential crises. The team also combines policy and regulatory experience to provide clients with proactive and responsive counsel and advocacy in utility-related regulatory and business matters, helping them provide efficient and high-quality service to the public.
