

Spencer Fane Team Explores New AI Governance Regulations in Texas Lawyer

Spencer Fane attorneys [Shawn Tuma](#) and [Christine Chasse's](#) article on the Texas Responsible Artificial Intelligence Governance Act (TRAIGA) was recently published by the *Texas Lawyer*.

The piece, [Texas Enacts Comprehensive AI Governance Law with Specific Requirements for Health Care Service Providers](#), originated as a firm [blog post](#). In it, the team outlines key aspects of TRAIGA including its purpose, requirements, and impact for health care providers. They also shared strategic next steps for businesses and health care organizations.

As Shawn and Christine note, TRAIGA marks “a significant milestone in artificial intelligence (AI) regulation” that “establishes a comprehensive framework for the ethical development, deployment, and use of AI systems in Texas.”

“Compliance is critical to avoid penalties and reputational risks,” they advised.

At the firm, Shawn co-leads the firm’s Cyber | Data | Artificial Intelligence | Emerging Technology Practice Group while serving as Office Managing Partner for the firm’s Plano location. In addition to these leadership roles, he maintains a robust law practice that helps businesses protect their information and protect themselves from their information. Christine utilizes her extensive front-line health care experience to assess and successfully resolve CMS investigations and litigation for hospital systems and providers. She also guides her clients on cyber incident response matters such as actual or potential HIPAA breaches and data security incidents.
