

SpencerFane®

Spencer Fane to Sponsor 2025 IP Dealmakers Forum

Spencer Fane is pleased to serve as a gold sponsor for the annual IP Dealmakers Forum on November 5-7 in Austin, Texas. Attorneys [Holly Barnes](#), [Gene Cherng](#), [Lawrence Drucker](#), [Mateo Fowler](#), and [Brett Pinkus](#) will represent the firm at the event, with Gene also serving as a conference speaker.

Lawrence coordinated the firm's sponsorship of this premier conference, which will convene over 350 industry rainmakers at the forefront of the global intellectual property market, including investors, advisors, IP owners, and other industry thought leaders. As part of this year's program, Gene will join the panel, Deep Dive: All Change at the PTAB. He and his fellow speakers will delve into how policy shifts and administrative changes have reshaped the Patent Trial and Appeal Board; the drop in instituted petitions and what it means for strategy and enforcement; and shifting standards, discretionary denials, and procedural changes affecting post-grant strategies.

The Spencer Fane Patent Litigation Group is made up of seasoned trial attorneys with knowledge in a large variety of technical disciplines. Our attorneys have tried cases throughout the nation including in the most active districts for patent litigation such as the courts in Texas, Delaware, and California and regularly represent clients before the Federal Circuit Court of Appeals, International Trade Commission and PTAB. Our team can leverage years of experience working with top litigation funders to help clients maximize the value of their patent portfolios.
