Tye Burger to Share eDiscovery Insights at Masters Conference

Tye Burger, Spencer Fane Senior eDiscovery Manager and Counsel,will present at the Masters Conference: Legal on June 24 in Denver, Colorado.

Tye will join the Modern Attachments: Navigating the Complexities of Linked Files, Cloud Content, and Dynamic Data in eDiscovery panel. This session will explore the evolution of collaboration and communication tools and address the challenges of collecting, processing, and reviewing modern attachments, from cloud-based documents and embedded links to dynamic content within messaging platforms. Tye and his fellow panelists will share real-world examples, technical insights, and practical guidance.

The Masters Conference is a highly regarded boutique legal conference held in various cities throughout the U.S., along with Toronto and London. Facilitating proactive collaboration among industry thought leaders, the conference includes CLE opportunities on a wide variety of timely topics such as artificial intelligence, information governance, project management, cybersecurity, and more.
