Overview

Yuka Kimura is a Japanese patent attorney with more than 20 years of experience in intellectual property law. Yuka assists clients with the preparation and prosecution of patent applications, supporting inventors and companies with strategic filings and prosecution that secure, protect, and maximize the value of intellectual property rights.

Yuka handles cases for Japan-based companies in various technologies involving printers, automobiles, magnetic disk substrates, vehicle antennas, musical instruments and more. Her ability as a native Japanese speaker and understanding of both Japanese and international IP landscapes enable her to effectively assist clients with cross-border IP matters.
